Worksheet: HEALTH DEPARTMENT PROGRAM ALIGNMENT (Strategy 3.2)

Use this worksheet to explore where strengths exist or identify actions needed to enhance program alignment for better child and family outcomes.

- 1. Begin by thinking about current health department programs that:
 - Promote the health and safety of children, families, and communities broadly
 - Promote the health and safety of children specifically
 - Promote safe, stable, and nurturing relationships and environments in families
 - Address child maltreatment specifically
- 2. Consider the following questions when completing this worksheet:
 - Do these programs intentionally align with each other?
 - Does staff understand the connections between their programs and primary prevention of child maltreatment?
 - Are there opportunities for better alignment?

_	Alignment of Existing Health Department Programs		
Programs:	Program	How Does This Program	How Is This Program Aligned with your Program /Effort?
Adolescent Health		Address CM Prevention?	How could there be better alignment?
